An Innovative UI/UX Design with a burning passion for creating user-centered digital experiences.

Being well-versed in design tools such as Figma, Adobe XD, and Adobe Illustrator and also proficient in user research, wireframe prototyping, and visual design

As an Immersive Media graduate, I have been able to develop a solid foundation in design thinking methodologies and principles.

With a keen eye for detail and a strong focus on usability, I am dedicated to designing intuitive interfaces that elevate the user experience.
